

# Camp Scholler Water & Electric

## no reservations can be made for these sites

EAA's Camp Scholler has limited improved Electric and Water sites in the campground . The fee for these sites is posted on the official Airventure camping site. (<http://www.eaa.org/en/airventure/plan-your-eea-airventure-trip/eea-camping-information/camp-scholler/electric-and-water-campsites>)

Sites are sold on a per night basis. Your fees begin from the day you book the site. There are no refunds if you depart early.

Example: you call Camp Scholler Registration 920-230-7725 on July 1st to secure the water & electric site knowing you will arrive on July 24th. The fees on the site start on July 1 (**not July 24th**). The daily rate is paid from July 1 to the end of the event.

The purchase of these sites is very similar to an auction with a buy it now clause. You can wait until the 24th to buy your site, however, someone could scoop up the remaining sites leaving you without one.

Past history shows that these sites are booked out as much as a week prior to the event. Many sit unoccupied but paid for. Keep in mind that your RV rental and your camping site are two separate agreements. Having the RV to you early will also cost extra days.

**If you are interested in one of these sites you will have to purchase your own site and call us with your site number** Purchase the site from at least the Thursday prior to the event forward to allow us to deliver during off peak hours.

It is not practical for our drivers to sit in long traffic lines at the cost of drivers and large tow vehicles.
