

Planning your arrival to Camp Scholler

- When you are about 1/2 hour from Oshkosh please give us a call at 920-756-2494. This will give us time to get to the meeting spot. Let us know what make model and color of your vehicle
- Meet us at west gate of camp scholler. This gate is 200 yards directly south of the camper registration station.
- We will have your auto passes and camp credentials
- Look for our dark blue Chevrolet Silverado Pickup with a cap or a dark gray Chevrolet Equinox. Last year we found it to be very helpful for me to turn on our yellow safety Beacon when we spot your vehicle.
- If time allows we will escort you to your camp site. If you arrive at a busy time we may have to direct you to your site.
- Please be patient. I assure you that you will have a phenomenal experience at Airventure. Just give yourself a chance to acclimate to your new environment.
- Within 24 hours of your arrival you will see how great the accommodations and hospitality you will experience by our friends at the Experimental Aircraft Association. If you can't find something just ask one of the wonderful volunteers.
