

Exhibitors

- ✓ Provide us with the exhibitor booth number placement of your camping unit
- ✓ Provide us with site contact phone number and name
- ✓ Diagram your exhibitor space with North South East & West Orientation. Show us where you want the door to the camper
- ✓ Provide a rough estimate of the distance from the camper to the power pedestal (Make sure to check with us regarding the electrical requirements for your site. We will provide 35' of heavy duty cord to be included in your rental. Additional electrical cords are available for a fee. You cannot use cords other than 30 amp rated 10 gauge cords for units with a single air conditioner or 50 amp 8 Gauge cords for units with twin AC units. Note: Using the wrong power cords will cause damage to the electrical components in the RV which will be your responsibility. It is best to let us inspect your connections.
- ✓ Time of your arrival (when will someone be there)
- ✓ Earliest we may place the unit
- ✓ Send us an exhibitor pass so we may provide service should the need arise during show hours
- ✓ Water delivery will be available from our outside vendor Josh's Water Service 920-213-6124.
- ✓ Waste removal from holding tanks will be provided through an EAA approved vendor
